

COMMUNITY COLLEGE OF DENVER

Addendum to the 2018-2019 Online and Printed Catalogs

This addendum is an integral part of the college's 2018-2019 Academic Catalog; the purpose of this document is to amend current information or include additional information. The information published herein is effective for the 2018-2019 school year. If any of these changes impact a student's ability to graduate, please contact the dean for the area in question.

Updates and Corrections to Courses

AEC 102 Residential Construction Drawing

New prerequisites: AEC 116, AEC 121, or Chair Permission

New Corequisites: None

AEC 116 Building Materials

Removed all Reading prerequisites

AEC 122 Construction Practices and Documents

New prerequisites: AEC 116, AEC 121, or Chair Permission

New corequisites: AEC 121, AEC 102, or Chair Permission

AEC 125 History of Architecture

Removed all Reading and English prerequisites

AEC 219 LEED Exam Prep

New prerequisites: AEC 218 or Chair Permission

AEC 236 International Building Code

New prerequisites: AEC 116, AEC 102, or Chair Permission

AEC 280 Internship

Removed all prerequisites

BUS 115 Introduction to Business

New Prerequisite: Demonstrated College Readiness (ccd.edu/collegeready) or CCR 092 with a grade of C or better

New Corequisite: College Readiness (ccd.edu/collegeready) or CCR 094

CIS 118 Intro to PC Applications

Removed all prerequisites

NUA 171 Clinical: Advanced Nurse Aide

New Credit/Internship Hours: 1.5 hours

New Courses

ANT 211

Lecture Credit Hours: 3

Introduces the cultural resources management requirements of the federal government. This course explores the history, purposes, and goals of historic preservation through an examination of cultural, archaeological, and historical resources of the American Southwest.

Prerequisites: demonstrated college readiness

Effective Term: Spring 2019

CAD 246 Fusion/AutoDesk

CTE/ Lecture-Lab Credit Hours: 3

Replacing CAD 224 Revit Architecture.

AutoDesk Fusion 360 is a multi-platform software that brings together many different AutoDesk functionalities into a powerful Computer Aided Drafting & Design tool.

Prerequisite: CAD 240 AutoDesk Inventor

Effective Term: Spring 2019

CAD 280 Internship

Internship Credit Hours: 6

Replacing EGT 280 Internship for Redesigned Computer Aided Drafting and Design Program.

Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

Prerequisite: CAD 262

Effective Term: Spring 2019

CAD 289 Capstone

CTE Lecture-Lab Credit Hours: 6

Replacing EGT 289 in the new Computer Aided Drafting & Design Degree.

A demonstrated culmination of learning within a given program of study.

Prerequisite: CAD 264 3D Scanning

Effective Term: Spring 2019

DIT 121 Nutrition for Dietary Managers

Lecture Credit Hours: 4

Focuses on the study of normal nutrition in the individual, nutrition education, nutritional assessment, care plans, principles of therapeutic nutrition, diet modification, and quality assurance for clinical nutrition services. This course is part of the Association of Nutrition and Foodservice Professionals accredited training program for the Certified Dietary Manager, Certified Food Protection Professional (CDM, CFPP).

Prerequisites: N/A

Effective Term: Spring 2019

DIT 123 Management for Dietary Managers

Lecture Credit Hours: 4

Focuses on the study of foodservice, sanitation and safety, personnel and communications, and business operations required to manage a foodservice department located in continuous care retirement communities, long-term care facilities, hospitals, schools, and correctional institutions. This course is part of the Association of Nutrition and Foodservice Professionals accredited training program for the Certified Dietary Manager, Certified Food Protection Professional (CDM, CFPP).

Prerequisite: N/A

Effective Term: Spring 2019

NUR 101 Pharmacology Calculations

Lecture Credit Hours: 1

Prepares nurse to provide safe, patient-centered nursing care related to dosage calculations within the respective scope of practice. This course introduces critical thinking applied to dosage calculations and communication used when interacting with patients and members of the healthcare team related to various aspects of safe administration of medications. Information technology used to document medications administered and patient technology used to deliver medications are also practiced.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 102 Alterations in Adult Health I

Lecture Credit Hours: 4

Provides acquisition of basic nursing theory, communication, collaboration, and critical thinking necessary for safe, patient-centered nursing care to diverse adult patients experiencing common health alterations requiring medical/surgical interventions. The course introduces Practical Nursing and incorporates the legal and ethical responsibilities of the Practical Nurse.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 103 Basic Health Assessment for the Practical Nurse

Lecture/Lab Credit Hours: 1

Provides the theoretical knowledge and psychomotor skills used by the Practical Nurse performing a basic assessment of health status of stable adult patients with predictable outcomes, including collecting, reporting, and recording objective/subjective data, observing conditions or changes in condition, and differentiating normal from abnormal findings. Principles of therapeutic communication and patient teaching are included. Includes practice collecting basic assessment data in the nursing skills laboratory.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 104 Alterations in Adult Health II

Lecture Credit Hours: 5

Apply and expand the knowledge and skills learned in Adult Health I to provide acquisition of basic nursing theory, communication, collaboration and critical thinking necessary for safe, patient-centered nursing care for diverse adult patients with conditions that are stable and predictable. The course focuses on care of patients experiencing common health alterations requiring medical/ surgical interventions. The course incorporates legal and ethical responsibilities of the Practical Nurse in the care of adults.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 105 Practical Nursing Arts and Skills

Credit Hours: 6

Employs basic nursing theory and applies that theory and theory from other co-requisite nursing courses to the performance of nursing skills. Communication, collaboration, and critical thinking necessary for safe, patient-centered nursing care are applied to the care of patients across the lifespan with stable and predictable outcomes. The course applies guidelines related to the professional, legal, and ethical scope of practice of the Practical Nurse, including demonstrating safe performance of all psychomotor skills.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 110 Pharmacology for Practical Nursing

Lecture Credit Hours: 3

Categorizes basic principles of pharmacology, including major drug classifications using prototype drugs, principles of medication administration including best practices for safe, quality, and patient-centered care. Discusses the legal and ethical responsibilities of the Practical Nurse related to medication administration. Application of this content is used throughout the program nursing courses.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 111 Advancement into Practical Nursing

Lecture Credit Hours: 1

Demonstrates the roles and responsibilities of the Practical Nurse including scope of practice, supervision, assignment, and leadership skills. Emphasis on accountability, lifelong learning, perspectives in healthcare, and career and job readiness skills for entry level nursing practice.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 113 Basic Concepts of Maternal-Newborn Nursing

Credit Hours: 2

Applies and expands the knowledge and skills learned in the previous and concurrent courses to provide the acquisition of basic nursing theory, communication, collaboration, and critical thinking necessary for safe, patient-centered nursing care to childbearing families. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of childbearing families.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 114 Basic Concepts of Pediatric Nursing

Credit Hours: 2

Applies and expands on the knowledge and skills learned in the previous and concurrent courses to provide for the acquisition of basic nursing theory, communication, collaboration, and critical thinking necessary for safe, patient-centered nursing care to children and their families. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of children.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 115 Basic Concepts of Mental Health Nursing

Lecture Credit Hours: 1

Description: Applies knowledge of basic nursing theory, communication, collaboration, and critical thinking necessary for safe, patient-centered nursing care to diverse patients at various levels of mental health promotion and mental illness management. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of patients with mental health issues.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 116 Basic Concepts of Geriatric Nursing

Lecture Credit Hours: 1

Applies and expands the knowledge and skills learned in the previous and concurrent courses to provide for the acquisition of basic nursing theory, communication, collaboration, and critical thinking necessary for safe, patient-centered nursing care to older adults. The course incorporates the legal and ethical responsibilities of the Practical Nurse in the care of older adults.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 170 Clinical I

Internship Credit Hours: 3

Offers the clinical practicum to apply the related nursing theory.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 171 Clinical II

Internship Credit Hours: 2

Offers the clinical practicum to apply the related nursing theory.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 172 Clinical III

Internship Credit Hours: 1

Offers the clinical practicum to apply the related nursing theory.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 173 Clinical IV

Internship Credit Hours: 3

Offers the clinical practicum to apply the related nursing theory.

Prerequisite: Acceptance into the Practical Nursing program

Effective Term: Spring 2019

NUR 213
