

Emancipation for Tuition Purposes

Students under the age of 23 who are attempting to petition for in-state tuition using their own information, must prove emancipation from their parents. **This form must be attached to the Petition for In-State Tuition in order to be considered for emancipation.** According to the tuition law, emancipation occurs at the age of 22 years, or upon marriage, or if: 1. The parents or legal guardians submit an affidavit surrendering any claim or right to the care, custody, and earnings of the minor, as well as the duty to support the minor, together with the student's proof that the student can independently meet all living expenses, including the cost of education; and 2. failure of parents or legal guardians to provide financial support together with the student's proof that the student can independently meet all living expenses, including the cost of education. The 12-month waiting period for establishing domicile begins only after the date of emancipation has been established by appropriate documentation.

- Students with no parental contact must include a statement explaining how they support themselves financially and why they have no parental contact (i.e. my parents are deceased, I'm a ward of the state, my parents abandoned me, I don't know where my parents are, etc.).

- In support of your claim of emancipation, you must make complete financial disclosure. List all sources of financial support during your 12-month domicile period including income from employment, commercial loans, unemployment, TANF, other public assistance, college financial aid, personal savings, trust funds; gifts and loans from parents, relatives, and friends; and all other sources. Use additional sheet if necessary.
