

# BEHAVIORAL HEALTH CERTIFICATES

BEH+

## BEHAVIORAL HEALTH ASSISTANT II

## ADDICTION RECOVERY ASSISTANT

#### **6 CREDITS**

The Behavioral Health Plus Certificate prepares students with foundational behavioral health knowledge.

#### 10 CREDITS

**QBHA** 

The Qualified Behavioral Health Assistant Certificate is designed to help prepare students in the development of foundational behavioral health knowledge, as well as crisis intervention.

#### **16 CREDITS**

The BHA II builds upon the QBHA I certificate through service-learning experience, as well as a deeper analysis of diverse cultural backgrounds and perspectives that impact care in behavioral health settings.

#### 20 CREDITS

The Addiction Recovery
Assistant certificate provides
students with skills to support
individuals in their treatment
of substance abuse or
dependence.

#### **HOW CAN I USE THIS**

This is a great addition for any professional. You'll be better equipped to handle the behavioral health aspects of your job to make a stronger impact on your community.

#### **HOW CAN I USE THIS**

Those with a QBHA can become an entry-level behavioral healthcare practitioner and eligible to be included in a Medicaid care team.

#### **HOW CAN I USE THIS**

This is one step up from the QBHA, where you can become a behavioral healthcare practitioner and eligible to be included in a Medicaid care team, and continue to build into behavioral health.

### **HOW CAN I USE THIS**

This curriculum includes the required course credits for the Certified Addiction Technician Certification, leading to work in addiction recovery, hospitals, youth recovery facilities or residential treatment centers.
