Bill History

CCD's Advanced Manufacturing Center will be celebrating its grand opening on October 6, 2015. As in the past, I would like to organize a giveaway. I feel that new safety equipment of a reputable brand is an excellent motivator for the newest generation of manufacturing students. With safety in mind this equipment will be used every day to aid in the student's success as well as giving them a chance to utilize equipment that is standard in their field of study. The population of the AMC is estimated to be three times as much as the North Campus facility therefore I am increasing the number of items I would like to give away to its students.
