

Emergency Planning and Recovery Committee

Date: November 8, 2016

Time: 1–2 p.m.

Location: Tivoli 740

ATTENDEES

Auraria Higher Education Center (AHEC)

Katy Brown

Eric Leath

Jason Mollendor

Blaine Nickeson

Michael Phibbs

Emily Sanders

Rich Vigil

Auraria Library

Becky Robinson

Health Center at Auraria

Zac Uszacki

Community College of Denver (CCD)

Meloni Crawford

Kevin Seiler

Metropolitan State University of Denver (MSU Denver)

Mark Pokorney

University of Colorado Denver (CU Denver)

Quinston Daugherty

Essi Ellis

Cory Garcia

Ethan Martin

MEETING MINUTES

- **AHEC Emergency Preparedness Report—Blaine Nickeson/Eric Leath**
 - November 11th (tomorrow) is the Heartsaver Class (CPR/First Aid/AED training)
 - Dec 1st is the next Spotlight on Preparedness (Noon–2pm). It's the same topic as the one in July—Identifying and Helping Persons in Crisis. The time was changed to midday so more people can attend.
 - Auraria Campus Safety Video issue—The video is aired on the campus TV network and runs on rotation. It caused alarm in a class last week when the instructor turned on the TV and the scene instructed how to respond to an active shooter. The students misunderstood and thought there was an active shooter on campus; they didn't understand it was a training...Communications is updating the video to include a header that indicates it's a training video.
 - Eric expressed concern that students have never seen the video. He asked the institution reps to discuss with their leadership how they can encourage faculty to show the video in their classes.
 - There's a report that an anti-Trump rally will be tonight on Capitol Hill.

- **Auraria Campus Police Report—Mike Phibbs**
 - Campus Safe Night is tonight. Everyone attending should meet in the Tivoli Roger Braun Multicultural Lounge at 5 p.m. Teams will walk the campus to identify areas of safety or perceptions of concerns. From there a list will be compiled to review with leadership.
 - There was a student death at the Student Success Building last week—most likely cause was medical. President Jordan sent some information out to their community about it. It wasn't a criminal situation, so a Rave alert was not sent.
 - Blaine added that an AED was deployed by citizens and they're following protocol to get it serviced and back into action.
 - Working with Emily Sanders on fire alarms to ensure that all the alarms are in proper order and that the officers know how to reset them.
 - The ACPD had a Narcan save—it's a drug that's used to save someone experiencing a opioid overdose. ACPD officers responded to a call in the Admin Building; they were able to revive the individual with the medication.
 - There was a death in the Atlas Metals parking lot behind Campus Village this morning—but it was unrelated to the campus, and there was no threat to the community.
 - The ACPD has expanded the camera system—there's not a day that goes by where the system isn't used to help monitor situations and solve crimes.
- **Auraria Campus Environmental Health and Safety—Emily Sanders**
 - Reminded the group that there are additional trainings available. She has put them together with Ethan from CU Denver. Check her webpage for more info: www.ahec.edu/ehs
 - Sharps containers are back in the limelight. Auraria Library would like to have them installed. More information will be available as a plan is developed.
- **CU Denver Environmental Health and Safety—Ethan Martin**
 - No report
- **MSU Denver Environmental Health & Safety—Mark Pokorny**
 - No report
- **Health Center at Auraria—Zac Uszacki**
 - Flu shot clinic on November 16th from 11 a.m.–1 p.m.; free with a campus ID
- **CU Denver Emergency Preparedness—Essi Ellis/Cory Garcia**
 - Working with Student Affairs and Campus Village on their emergency plans, as well as planning tabletops
 - Essi asked the group what would happen if an emergency occurred at Campus Village; how would emergency communications be handled?

- Blaine responded that for misdemeanors, AHEC acts as the spokesperson. For felonies, DPD would act as spokesperson. AHEC would manage emergency comms (Rave alerts/Timely Warnings), but if there's anything related to students, it would fall on the student's institution.
- Essi reported that she and Cory met with Red Cross on what resources they can provide in an emergency—they'll include the information in their emergency plans.
- Cory reported on the Auraria Library—he shared the SOPs he's developing for them.

CCD—Meloni Crawford/Kevin Seiler

- No report

Campus Village—Quinston Daugherty

- Q reported that he's working with Tim Dudley on making sure Campus Village is connected to the Auraria Campus telecom system

AHEC Communications—Katy Brown

- No report

Meeting adjourned at 1:45 p.m.
